

GROUND MARKER

PRODUCT DESCRIPTION

Vertex Ground Marker is a high-grade concentrated spray containing high purity pigments. The product is available in a wide range of colours. Designed to spray Upside Down for ease of use and accurate line marking. Vertex Ground Marker is suitable for multi-purpose applications, including concrete, dirt, grass, metal etc. The product is extremely durable and is UV resistant for applications such as use on highways, earthworks, pipelines, buildings, and electrical installations. The product has a rapid drying time of approximately 5 minutes.

APPLICATIONS & BENEFITS

- Suitable for use on various surfaces: concrete, asphalt, materials with a good adhesion and rapid drying (about 5 min).
- High UV resistance gives long lasting results in the New Zealand climate (Approx 3 months)
- One can produces approximately 100m of line on concrete, bitumen, and grass.
- The can fits most Line Marking Trolleys.
- Does not contain CFCs or methylene chloride.
- Very good covering ability – High-visibility, due to the use of fluorescent pigments and resins.
- Colours are exact matched to exceed industry colour, gloss, and performance needs.
- Guaranteed minimum shelf life of one year.
- Our aerosols contain no lead or other heavy metals, chlorofluorocarbons (CFCs) or other ozone-depleting compounds.

PACK SIZES AVAILABLE

500 ml Aerosol (UN Blue • Fluro Pink • Fluro Red • Red • Fluro Orange • Fluro Yellow • Yellow • Fluro Green • Green • Waterproof White Specifications)

SPECIFICATIONS

- NZFSA C12
